Colour	White (with white or black ear loops)
Size	Universal fitting
Air permeability	290 - 350 litres/cm ² /second
Product Weight	5 grams per mask
Other Characteristics	Washable, water-repellent surface
Certification	Artisanal; BS EN14683 FFP2 Pending

WASH BEFORE & BETWEEN USES

Product may have mild odour when removed from packaging. Product must be washed before first-use. Wash at 40 degrees maximum on wool/delicates cycle. Drip dry only. Discard and replace if face mask becomes damaged after use/repeated washing. This product is designed to reduce exposure to dust, pollen, coughs and sneezes but does not guarantee protection from infectious diseases. Store in original packaging until required in a cool, dry location. After washing, store in a clean, dry, dust-free location until required. Dispose after 4 wash cycles with household waste.
